

Audit Completion Report West Oxfordshire District Council

For the year ended 31 March 2024

Ref: PLWE109788/AW
Date: 4 February 2025

Members of the Audit and Governance Committee
West Oxfordshire District Council
Woodgreen Office
Witney
OX28 1NB

Dear Sirs and Madams

West Oxfordshire District Council (the Council) – Audit Completion Report

We are pleased to attach our Audit Completion Report. This report summarises our audit conclusions, highlights the key findings arising from our work and details a number of points that we would like to discuss further with you.

We have initially discussed the contents of our report with management, and we have incorporated their comments where relevant.

This report is intended to be solely for the information and use of management and those charged with governance of the Council. It should not be shared with anyone beyond the Council without our prior approval.

We would like to take this opportunity to thank the finance team for the co-operation and assistance afforded to us during the course of the audit.

Yours faithfully

A handwritten signature in black ink that reads "Bishop Fleming LLP". The signature is written in a cursive, flowing style.

BISHOP FLEMING LLP

1. Executive summary

Status of audit

The scope of our work is set in accordance with the National Audit Office's Code of Audit Practice (the Code) and the International Standards on Auditing (ISAs) (UK). Our work is planned to provide a focused and robust audit. We are required to provide an independent opinion as to whether the financial statements:

- give a true and fair view of the financial position of the Council at the year end and of its expenditure and income for the year then ended;
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2023/24; and
- have been prepared in accordance with the requirements of the Local Audit and Accountability Act 2014.

On 9 September 2024, the Secretary of State for Ministry of Housing, Communities and Local Government (MHCLG) laid regulations to introduce statutory deadlines for publication of audited accounts amending the Accounts and Audit Regulations 2015. These came into force on 30 September 2024 with the intention of addressing the backlog in local government accounts. For the 2023/24 financial year, under these new regulations, an authority must publish its accountability statements (namely its audited statement of accounts, annual governance statement and narrative statement) on or before 28 February 2025.

Key audit issues

Within our Audit Plan which was presented to the Audit and Governance Committee in September 2024, we outlined a number of risks that we considered to be of particular significance to the audit. Our plan also detailed our planned approach for addressing each of these risks.

The specific risks highlighted were as follows:

- Management override of controls;
- Valuation of land and buildings;
- Valuation of investment properties; and
- Valuation of the pension fund net liability.

Our audit work has been satisfactorily completed on each of the above areas, and is further detailed in Section 4 of this report.

Audit adjustments

Full details of the adjustments identified are included in Section 6 to this report.

Management letter points and Internal control matters

A number of control points were identified during the course of our work and these are further detailed in Section 7 to this report. Of the matters noted, none are considered to have an important effect on your system of internal control.

Value for Money

We are also required to satisfy ourselves that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2024. The National Audit Office's Code of Audit Practice requires us to report on the Council's arrangements under three specified reporting criteria:

- Financial sustainability – how the Council plans and manages its resources to ensure it can continue to deliver its services;
- Governance – how the Council ensures it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness – how the Council uses information about its costs and performance to improve the way it manages and delivers its services.

Our work has not identified any significant weaknesses; see Section 8 for more details. The results of the Value for Money work are reported separately in our Auditor's Annual Report.

Independence

The FRC Ethical Standard and ISA 260 requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our independence and objectivity. The aim of these communications is to ensure full and fair disclosure by us to those charged with governance on matters in which you have an interest.

We are not aware of any relationships that, in our professional judgment, may reasonably be thought to bear on our independence or the objectivity of the audit engagement team.

We confirm that in our professional judgment, Bishop Fleming is independent within the meaning of regulatory and professional requirements and the objectivity of the audit engagement partner and audit staff has not been compromised.

We consider that our independence in this context is a matter that should be reviewed by both you and ourselves. It is therefore important that you consider the facts of which you are aware and come to a view. Should you have any specific matters that you wish to discuss, please contact us.

2. Introduction

Responsibilities of the audited body

The audited body is responsible for the preparation of the financial statements and for making available to us all the information and explanations we consider necessary. Therefore, it is essential that it confirms that our understanding of all matters referred to in this report are appropriate, having regard to its knowledge of the particular circumstances.

We would point out that the matters dealt with in this report came to our attention during the conduct of our normal audit procedures which are designed primarily for the purpose of expressing our opinion on the financial statements of West Oxfordshire District Council.

In consequence, our work did not encompass a detailed review of all aspects of the system and controls and cannot be relied upon necessarily to disclose possible frauds or other irregularities, or to include all possible improvements in internal control that a more extensive special examination might reveal.

Materiality

In carrying out our audit work we have considered whether the financial statements are free from 'material misstatement'. Materiality is an expression of the relative significance of a particular matter in context of the financial statements as a whole.

In general, misstatements, including omissions, are considered to be material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

The assessment of whether a misstatement is material in the context of the financial statements is a matter of professional judgement and will have regard to both the size and the nature of the misstatement, or a combination of both. It is also affected by our perception of the financial information needs of users of the financial statements.

	Basis of materiality	Amount
West Oxfordshire District Council	2% of gross expenditure on provision of services	£1,158k

The level of materiality is unchanged since our Audit Plan.

Audit report

We have issued an unmodified audit report on the financial statements of West Oxfordshire District Council for the year ended 31 March 2024.

Letter of representation

The draft letter of representation is attached at Appendix 1.

Update on our planned approach

Our audit work was carried out in accordance with our Audit Plan in response to the perceived audit risks. No matters were identified which required us to change our approach and no additional risks were identified.

Our audit is complete.

Confidentiality

This document is strictly confidential and although it has been made available to those charged with governance to facilitate discussions, it may not be taken as altering our responsibilities to the Council arising under the Local Audit and Accountability Act 2014 (the Act) and from the Code of Audit Practice. The contents of this report should not be disclosed to third parties without our prior written consent.

3. Audit and accounts process

The preparation of the financial statements is a vital process for the management of the Council and one which should be performed on a timely basis. We met with senior officers as part of our planning work to discuss how we would work together to make the audit process effective.

We discussed key accounting issues early, so they could be considered before the audit commenced.

- Readiness for audit** 
- Quality of financial statements** 
- Accuracy of financial records** 
- Quality of working papers** 
- Availability of staff** 

Key (Impact on audit approach)

- No impact on audit 
- Some impact on audit 
- Significant impact on audit 

We invested significant time into the audit running as smoothly as possible. In addition to carrying out a review of the predecessor auditor’s working papers, we also met with Grant Thornton to discuss key issues and ensure we had a clear understanding of the prior year audit. At the start of the audit, we held planning meetings with key management personnel and a meeting with the finance team to set expectations for the audit. During the final audit, we had bi-daily calls with the finance team, supported by a status list of ongoing requests.

As a result of the investment made by both parties, the audit has generally proceeded smoothly. We are keen to continually improve our service and the effectiveness of the process and, therefore, we will hold a debrief discussion with management to identify areas where this might be possible.

Readiness for audit

We were provided with a copy of the draft financial statements in line with the timetable agreed before the start of the audit and as outlined in our audit plan. Information requested during the onsite fieldwork was generally provided promptly to our staff. This made the core audit work progress relatively smoothly, although there were some areas which naturally took longer considering their complexity such as the valuation work.

Quality of financial statements

Management have taken charge of preparing and drafting the financial statements. We have provided our comments on the financial statements. We raised several minor comments on the accounts to resolve rounding differences, wording and consistency of balances recognised. Most of these have been adjusted, with those that remain we are comfortable to be left as unadjusted as they are trivial in their nature.

Accuracy of financial records

The majority of the underlying financial records were accurate, agreed to the information provided in the audit file and were easy to understand.

Quality of working papers

While the quality of the working papers and supporting evidence provided was generally good, there were some areas where audit evidence provided was not appropriate leading to additional follow up queries being required. These included spreadsheets being provided rather than original source documentation in several areas. Once sorted, the working papers reconciled back to the trial balance. This made the core audit work progress smoothly and as planned.

Availability of staff

Key members of the finance team made themselves available to us throughout the audit where possible. We were kept informed of any instances when staff were not available.

4. Audit risks

Management override of controls	
Significant Risk We are required by auditing standards (ISA 240) to consider fraud and management override of controls to be a significant risk for all audits as no matter how strong a control environment, there is the potential for controls to be overridden or bypassed.	Work done and conclusion To address this risk, we have: <ul style="list-style-type: none">• reviewed the reasonableness of accounting estimates and critical judgements made by management;• tested journals with a material impact on the results for the year; and• considered a sample of other journals with key risk attributes. In testing journals, we used data analytics tools to interrogate the whole population of journals posted in the year and focus on those with key risk factors. We have not identified any material errors from our work carried out.

Valuation of land and buildings	
Significant Risk There is a risk over the valuation of land and buildings due to the high degree of estimation uncertainty, and judgements involved in build valuations.	Work done and conclusion To address this risk, we have: <ul style="list-style-type: none">• documented our understanding of the processes and controls put in place by management, and evaluate the design of the controls;• reviewed the instructions provided to the valuer and the valuer's skills and expertise, in order to determine if we can rely on the management expert;• written to the valuer to confirm the basis on which the valuation was carried out;• confirmed that the basis of valuation for assets valued in year is appropriate based on their usage;• reviewed the appropriateness of assumptions used in the valuation of land and buildings. For assets not formally revalued in the year we assessed how management has satisfied itself that these assets are not materially different from the current value at the year-end;• reviewed accuracy and completeness of information provided to the valuer, such as floor areas;• tested a sample of revaluations made during the year to ensure that they have been input correctly into the Council's asset register; and• form our own expectations regarding the movement in property values and comparing this to the valuations reflected in the Council's financial statements, following up valuation movements that appear unusual.

Valuation of land and buildings

We have not identified any material errors from our work carried out.

Valuation of investment properties

Significant Risk

There is a risk over the valuation of investment properties due to the values involved and the high degree of estimation uncertainty, due to the sensitivity of the estimate to changes in key assumptions and judgements.

Work done and conclusion

To address this risk, we have:

- documented our understanding of the processes and controls put in place by management, and evaluate the design of the controls;
- reviewed the instructions provided to the valuer and the valuer's skills and expertise, in order to determine if we can rely on the management expert;
- written to the valuer to confirm the basis on which the valuation was carried out;
- confirmed that the basis of valuation for assets valued in year is appropriate based on their usage;
- reviewed the appropriateness of assumptions used in the valuation of investment properties;
- reviewed accuracy and completeness of information provided to the valuer, such as floor areas, lease agreements and rent review memorandums;
- tested a sample of revaluations made during the year to ensure that they have been input correctly into the Council's asset register; and
- form our own expectations regarding the movement in property values and comparing this to the valuations reflected in the Council's financial statements, following up valuation movements that appear unusual.

We have not identified any material errors from our work carried out.

Valuation of the pension fund net liability

Significant Risk

There is a risk over the valuation of the pension fund net liability due to the values involved and the high degree of estimation uncertainty, due to the sensitivity of the estimate to changes in key assumptions.

Work done and conclusion

To address this risk, we have:

- documented our understanding of the processes and controls put in place by management, and evaluate the design of the controls;
- reviewed the instructions provided to the actuary and the actuary's skills and expertise, in order to determine if we can rely on the management expert;
- considered the accuracy and completeness of the information provided to the actuary;
- ensured that the disclosures in the financial statements in respect of the pension fund liability are consistent with the actuarial report from the actuary;
- carried out procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and
- obtained assurances from the auditor of the Oxfordshire Pension Fund in respect of the controls around the validity and accuracy of membership data, contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

We have not identified any material errors from our work carried out.

We detail further in Section 5 the consideration of revised 'asset ceiling' calculations by the actuary on the Council's financial statements.

5. Other audit and financial reporting matters

Valuation of the Pension Fund – Prior Year Adjustment

The macro-economic environment has had a significant effect on the actuarial valuation of the Council's share of Local Government Pension Scheme, with deficits reported by the Council's actuary through their IAS 19 report reducing significantly in each of the last two years.

Across the Local Government Sector accounting surpluses have become more prevalent. IFRIC 14 provides guidance from the International Financial Reporting Interpretations Committee on the extent to which an IAS 19 surplus can be recognised on the balance sheet and whether any additional liability needs to be recognised in respect of onerous funding commitments. The sector-wide approach to applying IFRIC 14 has developed over the last year as IAS 19 surpluses are becoming more common. This has resulted in some actuaries revising their approach when producing 'asset ceiling' calculations that adopt the principles set out in IFRIC 14.

On production of the asset ceiling report for the valuation as at 31 March 2024 the Council's Actuary, Hymans Robertson, determined that an additional liability of £10,624k should be recognised in the current year to reflect an onerous funding commitment that results from the Council's commitment to make secondary contributions over the funding horizon period set out at the Triennial Valuation. This has the effect of increasing the closing deficit/liability position of the pension fund to £4,970k as set out in the financial statements.

We challenged the actuary as to whether this change in approach should be applied also to the prior year as at 31 March 2023. Upon confirmation from the actuary, the impact of the revised 'asset ceiling' calculation is a prior year adjustment of £3,085k. This has been adjusted for management and reflected in Annex A to the financial statements.

6. Audit adjustments

In accordance with the requirements of International Standards on Auditing, we must communicate all adjusted and unadjusted items identified during our audit work, other than those which we believe to be clearly insignificant.

Adjusted items

We are pleased to say there were no adjustments that impact on the key statements for the year ended 31 March 2024. However, a prior year adjustment has been recognised in relation to the actuary's 'asset ceiling' calculation.

	Comprehensive Income and Expenditure Statement		Balance Sheet	
	Dr	Cr	Dr	Cr
	£'000	£'000	£'000	£'000
<u>Prior year – 2022/23</u>				
1) Adjustment to reflect revised 'asset ceiling' calculations from the Council's actuary <i>This adjustment reflects the application of a consistent methodology per the actuary regarding 'asset ceiling' calculations as detailed in Section 5.</i>	3,085			(3,085)

Misclassifications and adjustments to disclosures

The table below provides details of any misclassification and disclosure changes identified during the audit.

Misclassification / Disclosure change	Audit comment	Adjusted?
Misclassification	Resolution of the brought forward balances within Debtors and Creditors on the Balance Sheet to agree to the prior year signed Statement of Accounts.	✓
Disclosure changes	We raised several minor comments on the accounts to resolve rounding differences, wording and consistency of balances recognised. Most of these have been adjusted, with those that remain we are comfortable to be left as unadjusted as they are trivial in their nature.	✓

Unadjusted items

The table below provides details of adjustments identified during the 2023/24 audit which have not been made within the final set of financial statements. The Audit and Governance Committee is required to approve management's proposed treatment of all items recorded within the table below. (These are also set out in the Letter of Representation.)

<i>Factual (F), judgemental (J), projected (P)</i>		Comprehensive Income and Expenditure Statement		Balance Sheet	
		Dr	Cr	Dr	Cr
		£'000	£'000	£'000	£'000
1) Understatement of investment property valuation <i>Being a judgemental adjustment arising due to the methodology of the external valuer used by the Council, whereby they would round a valuation of an asset down to the nearest £'000. This adjustment reflects the actual valuation of all assets if no such rounding was applied.</i>	J		(188)	188	
2) Overstatement of investment income <i>Being balances that we could not evidence on account of sickness within the Council's team.</i>	F	121			(121)
Total		121	(188)	188	(121)

7. Management letter points and internal control systems

The Council’s management is responsible for the identification, assessment and monitoring of risk, for developing, operating and monitoring the systems of internal control and for providing assurance to the Those Charged with Governance that it has done so.

In accordance with the terms of our engagement we have not provided a comprehensive statement of all issues which may exist in the accounting and internal control systems or of all improvements which may be made, but outline below our observations arising from the audit; none of which are considered significant.

KEY:

Observations refer to issues that are so fundamental to the system of internal control that management should address immediately to minimise the risk of a material misstatement within the financial statements.

Observations refer mainly to issues that have an important effect on the system of internal control and, if left uncorrected could potentially lead to a material misstatement within the financial statements.

Observations refer to issues that would, if corrected, improve internal control in general and engender good practice, but is unlikely to have a material impact on the financial statements.

Current Year Issues

Register of Interests	
CY:	
Two elected members were identified where their registers of interests had not updated due to no response being given by them in a timely manner.	<p><u>Recommendation</u> We recommended the Council consider their monitoring process for responses to ensure timely responses are being provided.</p> <p><u>Management Comment</u> Agreed.</p>

Leases	
CY:	
<p>The Council has a number of leases in place, both operating and finance leases. We sampled 42 leases as part of our work as the Council’s new auditor. For several leases, it took a notable amount of time for the lease agreements to be located and shared across with us.</p> <p>Upon receipt, for 12 leases, while we received the original lease agreement, we did receive evidence for the most recent rent figure that applied in 2023/24. We performed alternative procedures over these leases to ensure they had been recognised at the correct values.</p>	<p><u>Recommendation</u> We recommended the Council ensures it has easy access to its underlying leases and supporting documents if ever needed.</p> <p>It will also be important also as part of the transition work required to be undertaken as the new accounting standard <i>IFRS 16 Leases</i> is adopted in the year ending 31 March 2025.</p> <p><u>Management Comment</u> Agreed.</p>

Prior Year Issues – Resolved

Environmental Services Contract	
<p>The Council does not have a formal agreement with Ubico extending the Environmental Services Contract. The previous contract was to provide services to 31 March 2021 with an option to extend by up to five years.</p>	<p><u>Original Recommendation</u> The predecessor auditor recommended the Council and Ubico have a formal agreement disclosing the agreed length of the extension.</p> <p><u>Original Management Comment</u> The Auditors were provided with a copy of the report taken on this contract to Cabinet on 17 February 2021. The subject of that report was "Extension of Environmental Services Contract with Ubico" and the recommendation was an extension to 31 March 2024. The recommendation was approved by the Council on 24 February 2024.</p> <p><u>2024 Update</u> We consider the matter closed as the WODC waste services contract runs until 1 April 2026.</p>

8. Other matters

Other information

We are required to give an opinion on whether the other information published with the audited financial statements (for example, the Narrative Statement and Annual Governance Statement) is materially inconsistent with the financial statement or our knowledge as obtained during the audit.

We have nothing to report in this respect.

Reporting by exception

We are required to report to you by exception the following matters, if:

- the Annual Governance Statement does not comply with “Delivering Good Governance in Local Government: Framework 2016 Edition” published by CIPFA/SOLACE; or
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014; or
- we make a written recommendation to the Council under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application to the court for a declaration that an item of account is contrary to law under section 28 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we issue an advisory notice under section 29 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application for judicial review under section 31 of the Local Audit and Accountability Act 2014, in the course of, or at the conclusion of the audit.

We have nothing to report on these matters.

The 2014 Act also gives rights to local electors and other parties, such as the right to ask questions of the auditor and the right to make an objection to an item of account. No such objections have been raised.

Going concern

Our work has not identified a material uncertainty related to going concern. We are satisfied that management’s use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Value for money arrangements

We are required to satisfy ourselves that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2024. The Code of Audit Practice requires us to report on the Council’s arrangements under three specified reporting criteria:

- Financial sustainability – how the Council plans and manages its resources to ensure it can continue to deliver its services;
- Governance – how the Council ensures it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness – how the Council uses information about its costs and performance to improve the way it manages and delivers its services.

We asked management to complete an evidenced self-assessment of the Council’s arrangements. We then reviewed the evidence provided and carried out follow-up work as appropriate to consider whether there are any significant weaknesses in the Council’s arrangements for securing economy, efficiency and effectiveness in its use of resources.

We have not identified any significant weaknesses and the results of our Value for Money work are reported separately in our Auditor’s Annual Report.

Whole of Government accounts work

Alongside our work on the financial statements, we also review and report to the National Audit Office on the Council's Whole of Government Accounts (WGA) return. The extent of our review, and the nature of our report, is specified by the National Audit Office.

We have completed the limited procedures required in the National Audit Office's group instructions in respect of our work on the Council's WGA submission. There are no issues to report to the Council.

Audit certificate

At the end of the audit, as auditors, we are required to certify the completion of the audit. The effect of this certificate is to close the audit and marks the point when the auditor's responsibilities in respect of the audit of the period covered by the certificate have been discharged.

We will be unable to issue our audit certificate alongside the auditor's opinion on the accounts until we have received confirmation from the NAO that no additional work (beyond submission of the Assurance Statement) will be required in respect of the Whole of Government Accounts exercise.

Audit fees

Our final fee for the 2023/24 audit is set out below:

	Fee proposed at planning stage (£)	Final fee (subject to approval by PSAA) (£)
PSAA scale fee 2023/24	139,375	139,375
Fee variation for additional procedures in relation to revisions to ISA 315	TBC	11,995
Fee variation in relation to additional procedures incurred for audit of pension disclosures to ensure compliance with IFRIC 14	TBC	1,150
Total (excluding VAT)	TBC	152,520

We can confirm that we have not undertaken any non-audit work at the Council during the year.

Appendices

1. Letter of representation

Bishop Fleming LLP
10 Temple Back
Redcliffe
Bristol
BS1 6FL

Dear Sirs and Madams

WEST OXFORDSHIRE DISTRICT COUNCIL

FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024

The following representations are made on the basis of enquiries of management and staff with relevant knowledge and experience such as we consider necessary in connection with your audit of the West Oxfordshire District Council (the Council) financial statements for the year ended 31 March 2024. These enquiries have included inspection of supporting documentation where appropriate, and are sufficient to satisfy ourselves that we can make each of the following representations. All representations are made to the best of our knowledge and belief.

1. General

We have fulfilled our responsibilities for the preparation of the Council's financial statements in accordance with International Financial Reporting Standards and the CIPFA / LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2023/24 (the Code) and applicable law and for being satisfied that they give a true and fair view and for making accurate representations to you.

All the transactions undertaken by the Council have been properly reflected and recorded in the accounting records.

All the accounting records have been made available to you for the purpose of your audit of the Council. We have provided you with unrestricted access to all appropriate persons within the Council, and with all other records and related information requested, including minutes of all Council and Committee meetings.

The financial statements are free of material misstatements, including omissions.

The effects of uncorrected misstatements (as set out in Appendix A to this letter) are immaterial both individually and in total.

2. Internal control and fraud

We acknowledge our responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud and error, and we believe that we have appropriately fulfilled these responsibilities. We have disclosed to you the results of our risk assessment that the financial statements may be misstated as a result of fraud.

We have disclosed to you all instances of known or suspected fraud affecting the Council involving management, employees who have a significant role in internal control or others where fraud could have a material effect on the financial statements.

We have also disclosed to you all information in relation to allegations of fraud or suspected fraud affecting the Council's financial statements communicated by current or former employees, analysts, regulators or others.

3. Assets and liabilities

The Council has satisfactory title to all assets and there are no liens or encumbrances on the Council's assets, except for those that are disclosed in the notes to the financial statements.

Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable. Such accounting estimates include PPE and investment property valuations, pension liability and NNDR provisions.

All actual liabilities, contingent liabilities and guarantees given to third parties have been recorded or disclosed as appropriate.

We have no plans or intentions that may materially alter the carrying value and, where relevant, the fair value measurements or classification of assets and liabilities reflected in the financial statements.

4. Accounting estimates

The methods, data and significant assumptions used by us in making accounting estimates and their related disclosures are appropriate to achieve recognition, measurement and disclosure that is reasonable in the context of the applicable financial reporting framework.

5. Legal claims

We have disclosed to you all claims in connection with litigation that have been, or are expected to be, received and such matters, as appropriate, have been properly accounted for and disclosed in the financial statements.

6. Laws and regulations

We have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing the financial statements.

We confirm that all correspondence with our Regulators has been made available to you.

7. Related parties

Related party relationships and transactions comply with the Council's financial regulations, relevant requirements of the Code and have been appropriately accounted for and disclosed in the financial statements. We have disclosed to you all relevant information concerning such relationships and transactions and are not aware of any other matters which require disclosure in order to comply with regulatory, legislative and accounting standards requirements.

8. Subsequent events

All events subsequent to the date of the financial statements which require adjustment or disclosure have been properly accounted for and disclosed.

9. Going concern

We believe that the Council's financial statements should be prepared on a going concern basis on the grounds that the financial reporting framework applicable to local government bodies means that the anticipated continued provision of entity's services in the public sector is normally sufficient evidence of going concern. We have not identified any material uncertainties related to going concern.

10. Annual Governance Statement

We are satisfied that the Annual Governance Statement (AGS) fairly reflects the Council's risk assurance and governance framework and we confirm that we are not aware of any significant risks that are not disclosed within the AGS.

11. Narrative report

The disclosures within the Narrative Report fairly reflect our understanding of the Council's financial and operating performance over the period covered by the Council's financial statements.

We acknowledge our legal responsibilities regarding disclosure of information to you as auditors and confirm that so far as we are aware, there is no relevant audit information needed by you in connection with preparing your audit report of which you are unaware.

We have taken all the appropriate steps in order to make ourselves aware of any relevant audit/ other information and to establish that you are aware of that information.

Yours faithfully

.....

Signed on behalf of the Audit and Governance Committee of West Oxfordshire District Council.

30 January 2025
